Anaphylaxis kits in all cardiac arrest trolleys and adult medical emergency grab bags from Wednesday 25 June

Pharmacy have taken receipt of the pre-packed Anaphylaxis Kits and this week the Resuscitation Department will be distributing them to the cardiac arrest trolleys and adult medical emergency grab bags across the Trust.

The Anaphylaxis Kits will be located in the 4th drawer of the cardiac arrest trolley along with the blue cardiac arrest drug box.

The Anaphylaxis Kits are in a sealed box and have an expiry date on the outside which should be checked each day by ward staff in the same way as the cardiac arrest drug box. Any expired kits must be returned to Pharmacy for immediate replacement.

If the packaging around the Anaphylaxis Kits is broken it must be returned to Pharmacy to obtain a replacement. This process is the same when they have been used.

If you have any queries or require any other information please contact the Resuscitation Department on Ext 28800.
